

1	INSTRUMENTS	44By needle
2	..Light application	45	...Cutting
2.5	..Lithotripsy	46Endoscopic
3	..With particular wavelength	47With formable electrode
4	..Ophthalmic	48Bipolar electrodes
5	...Recurving or reshaping of the eye	49	...coagulation
6	...Cataracts or glaucoma	50Bipolar electrodes
7	..Angioplasty	51With forceps or tweezers
8	..Anastomosis	52With forceps or tweezers
9	..Dermatological	237	.Chiropractic or osteopathic implement
10	..Systems	238	..Percussive prod
11	...Beam energy control or monitoring	239	...Motorized pummelling device
12Condition responsive	240	..Positioner for recumbent user
13	..Applicators	241	..Extension appliance
14	...Placed in body	242	...Couch
15With optical fiber	243With intermediate gap
16	...With optical fiber	244With pivot to pedestal
17	...With beam shaping or redirecting (e.g., lens)	245	..With intermediate pivot
18Mirror	53	.Orthopedic instrumentation
19Articulated arm	54	..External fixation means
20	..Cryogenic application	55	...Movable by patient
21	..Internal application	56	...Ring frame
22	..With coolant supply	57	...Compression or distraction mechanism
23	...Tip or other cooling concentration means	58Cyclable or incrementable
24With heating means (e.g., defroster)	59	...Pin connector
25Self-contained coolant supply	60	..Internal fixation means
26With hand manipulable coolant control	61	...Spinal positioner or stabilizer
27	..Heat application	62	...Intramedullary fixator
28	..Tip or other heat concentration means	63Expanding in diameter or length
29	...Tip in electrical circuit	64Cross-fastened
30Self-contained powersupply	65	...Femoral screw
31With thermal control means	66Anti-rotation or keeper means
32	..Electrical application	67	...Femoral nail
33	..Electromagnetic wave irradiation	68Expanding
34	..Systems	69	...Cortical plate
35	...Ground electrode monitoring	70Multi-element or coated plate
36	...Depilation	71Having separable and distinct plate elements
37	...Combined cutting-coagulation	72	...Orthopedic fastener
38With feed back control	73Threaded fastener element
39	...Cutting	74Bone cerclage device
40	...Coagulation	75Staple or similar driven fastener
41	..Applicators	76	..Specialized coating or material
42	...With switching or power control	77	...Absorbable
43	...Depilation	78	...Shape memory material
		79	..Orthopedic cutting instrument
		80	...Reamer or drill
		81Acetabular

82	...Saw type tool	118	.Means for circumcision
83	...Rongeur, resector, or nipper	119	.Obstetric or gynecological instruments
84	...Osteotome or scraper	120	..Umbilical clamp
85Rasp or file	121	..Partuition assistance device
86	..Means for use in bone reparation	122	...Fetus extractor
87	...Osteotomy jig or fixture	123With vacuum or suction application
88Knee or knee joint	124With mechanical means for applying tension (e.g., gearing, reels, etc.)
89Femoral head	125	..Means for rupturing the amniotic membrane
90	...Joint distractor	126	..Embryotome
91	...Acetabular cup positioner	127	.Means for concretion removal
92	..Device for the application of bone cement	128	..With fragmenting means
93Applicator	129	.Electrode guide means
94Pressurized cement placement	130	.Stereotaxic device
95Intramedullary plug or centering means	131	.Means for removal of skin or material therefrom
96	...Drill or pin guide	132	..By means for skin graft preparation (e.g., dermatome)
97X-ray positioned	133	..Physical removal of hair or hair plugs from skin
98Cross-pinning drill guide	134	...By application of wax or adhesive
99	...Prosthesis insertor or extractor	135	.Means for, or to assist in mammalian sterilization
100Restrained movable mass (e.g., slide hammer)	136	..By crushing
101	...Nail or plate bender	137	..By severing
102	...Gauging or measuring device	138	.Means for removing suture, clip, staple or ligature
103	...Wiring aid	139	.Suture, ligature, elastic band or clip applier
104	...Screw or pin placement or removal means	140	..Elastic band applier
105	...Bone compression or distraction	141	...Band applied to reproductive organ
105.5Cast removal implement	142	..Clip applier
106	..Means for removing foreign objects from the throat or connected passageways (e.g., probang)	143	...Clip fed from supply
107	.Means for removing, inserting or aiding in the removal or insertion of eye lens material	144	..Mechanical suture or ligature applier
108	.Means for inserting or removing conduit within body	145	...Shuttle action by suture passing device
109	..Ear vent or drain	146	...Spool feeds suture to needle
110	.Means for removing tonsils, adenoids or polyps	147	...Means for clamping needle to handle
111	..With hemostasis	148	..Suturing or ligating aid or guide
112	...By pressure application	149	...Eversion device
113	..By wire loop or snare	150	...Alignment device (e.g., approximators)
114	..With collecting means for removed material	151	.Surgical mesh, connector, clip, clamp or band
115	...By vacuum application		
116	.Means for marking animals		
117	.Means for applying animal identification device		

152	..Connector for nerve endings	188	...Earlobe piercing means
153	..Connector for hollow body organs	189	...Acupuncture means
154	...Bioabsorbable	190	.Blunt dissectors
155	...Connector is single element	191	.Internal pressure applicator (e.g., dilator)
156Removable	192	..Inflatable or expandible by fluid
157	..Occluding clip, clamp, or band	193	...Inserted in female reproductive system
158	...Artery or vein	194	...Inserted in vascular system
159	.Blood vessel, duct or teat cutter, scrapper or abrader	195Detachable from inflation means
160	.Curette	196	...Nose or throat
161	.Optic, otic or oral scrapper or abrader	197	..Rectal or anal
162	.Means for cleaning eye, ear or nose	198	..Expanding dilator (e.g., expanding arm, etc.)
163	.Means for debeaking or dehorning animals	199	..Nasal dilator
164	..By electrical or thermal application	200	..With emboli trap or filter
165	.Means for removal of animal tails	201	.External pressure applicator
166	.Corneal cutter or guide for corneal cutter	202	..Pneumatic cuff
167	.Cutting, puncturing or piercing	203	..Tourniquet
168	..Cutter drive reversed to clean material therefrom	204	..Acupressure device
169	..Cutter having vibratory drive means	204.15	..Head
170	..Cutter carried on elongated probe-like member	204.25	...Eye
171	...Reciprocating or oscillating cutter	204.35	...Wrinkle remover
172	..Means to limit cutter penetration depth (e.g., dura guard)	204.45	...Nose shaper
173	...By disconnecting cutter drive	204.55	...Horn bender
174	..Shear type (e.g., scissors, etc.)	205	.Forceps
175	...Snout cutter	206	..Jaws biased to open or closed position
176	..Saw type	207	..Jaw structure
177	...Reciprocating	208	..Hinge or latch structure
178	...Oscillating	209	..Tubular member stripper
179	...Cylindrical	210	.Tweezers
180	..Rotary cutter	211	..Combined with another device
181	..Lancet	212	.Hoof crack repair
182	...Spring driven or biased into cutting position	213	.Sutureless closure
183Plural cutting blades	214	..Chemical bonding material applied to wound edges
184	..Punch	215	..Material placed on opposed sides of incision or wound
185	..Puncturing or piercing	216	...Means to draw opposed sides of incision into apposition
186	...Multiple puncturing elements (e.g., tatoo, scarifiers, etc.)	217Sliding fastener
187	...Hair or artificial hair injector or anchor	218Screw, rack and pinion or pawl and ratchet
		219	...Staple fastener
		220With retaining means
		221	...Approximating clip or serrefine
		222	.Suturing needle
		223	..Needle tip or body structure
		224	..Filament attachment

- 225 ...Tied, hooked, wedged or
 grasped
- 226 ...Deformed
- 227 ...Pull out or frangible
- 228 .Suture or ligature
- 229 ..Collagen containing
- 230 ..Absorbable in body
- 231 ..Organic material containing
- 232 .Suture retaining means (e.g.,
 buttons)
- 233 .Suture supported from engagement
 with incision (e.g., suture
 bridge)
- 234 .Oral pacifier
- 235 ..Teething device
- 236 ..Nipple attachment or structure
